

akzent  zero  
carbon neutral logistics

# We are the first sustainable logistics company in Mexico.

At Akzent we are aware of the challenge faced by the transportation industry to reduce emissions. We aim to do our part, by helping you achieve an immediate and positive environmental impact.

Akzent Zero was born in 2021 as a strategy, that has been defined to achieve the goals of developing sustainability programs, and creating an impact on your company's sustainability goals.

# How it works?

The Akzent Zero program automatically calculates the carbon dioxide emissions generated by each shipment made; we seek to offset 100% of these emissions through verified carbon credits. Carbon Offsets allow companies to mitigate the impacts of their GHG emissions through investments in projects that eliminate the same amount of emissions elsewhere.

**Scope 1**  
Indirect

**Scope 2**  
Direct

**Scope 3**  
Indirect

# Our benefits

We support multiple types of projects around the world that, in addition to benefiting the environment, seek to contribute to the Sustainable Development Goals established by the UN, such as ending hunger, economic development, education, gender equality, responsible consumption, among others.

Engage in a global effort to provide a sustainable future to the Earth

Reach your sustainability goals and meet regulations

Become an environmentally responsible company

Develop new products and in-house sustainable processes

# Our projects

This sustainability program focuses on two crucial projects to mitigate environmental impacts and encourage a long-term ecological footprint.

## CO<sub>2</sub> Neutralization project

Cutting-edge effort to mitigate the global carbon footprint generated by the logistics industry by neutralizing emissions through the purchase of carbon credits

## One shipment, one tree

Global ecosystem restoration by planting trees and revitalizing degraded areas

Our CO<sub>2</sub> emissions calculation processes are validated by GLEC.

# Happy customers

“ Thank you very much for sending the material! We are very happy to know that Akzent is committed to such an important topic as ESG (Environmental, Social and Governance). ”

*Tauany  
Brasil*

“ Glad to see that we together have made such contributions on the sustainability! ”

*Wen Guo  
China*

“ Thank you so much for your effort in bringing down CO<sub>2</sub> emissions! This is a fantastic project which will contribute to clean O<sub>2</sub> and renewable energy! Keep up the good work! ”

*Albert  
South Africa*

“ We all got a part to play in ensuring a sustainable future and you are a role model to this initiative! ”

*Alice  
South Africa*

Thank you!
